

```
#include<stdio.h>
#include<conio.h>
void main()
{
    int a,b,c,small;
    printf("Enter the value of 3 numbers");
    scanf("%d %d %d",&a,&b,&c);
    if(a<b)
        small=a;
    else
        small=b;
    if(small<c)
        printf("Smallest  number is =%d",small);
    else
        printf("Smallest number is = %d",c);
    getch();
}
```

Output:

```
Enter the value of 3 numbers10
3
4
Smallest  number is =3
```
